

Presenter's Name: _____ **Presentation Date:** _____

MCDB 7890/7891 STUDENT SEMINAR EVALUATION FORM

This evaluation is intended to provide feedback to presenting students so they may improve their future presentations. Criticism should be detailed, constructive and compassionate. A value of 2 is strongly affirmative (excellent, only good comments), while a value of -2 is strongly negative (poor, major improvement is needed). Whenever possible, provide specific comments.

	2	1	0	-1	-2
1. The title problem was addressed clearly in the first few minutes of the presentation.					
Comments					
2. Based on information provided by the presenter, the general approaches chosen for this study were clear.					
Comments					
3. The specific methods used in this study were presented clearly and in a logical progression.					
Comments					
4. The results were presented in an organized manner; and it was clear how the results were obtained.					
Comments					
5. I understood which results were obtained directly from experiments (raw data) and which were calculated or derived.					
Comments
